MEMORANDUM FOR: CHAIRMAN, UTILIZATION ADVISORY BOARD

SUBJECT: Utilization of CHES Material (C)

1. Reference is made to memorandum, TS(T)-2461, this office, dated 17 September 1957, subject as above, and your memorandum in reply, TCS-1919-57, dated 24 September 1957, subject identical.
2. The request and approval for sanitization transmitted by the referenced memoranda pertained to use of CHES material in an OACSI study scheduled for early publication concerning the rail transloading site and facilities at ZAHONY, Hungary.
3. At the time of the request, the OACSI contemplated subsequent publication of companion studies pertaining to similar and nearby sites at CHOP, U.S.S.R., and CERNA, Czechoslovakia. A more recent decision, however, contemplates consolidation of the three proposed studies into a single project to be published by the OACSI as "Characteristics of the CHOP-CERNA-ZAHONY Rail Transloading Complex".
4. Accordingly, the Army Member of the Board requests authority to extend the sanitization approval granted by the referenced memorandum to similar use of CHES material concerning the transloading sites at CHOP and CERNA.
5. As in the case of ZAHONY, feasibility of sanitization is supported by the existence of numerous intelligence reports describing the rail facilities at both CHOP and CERNA.
